LULUbeauty

Read instructions and glue Caution fully before use.
 Retain instructions for reference.

PREPARATION

1. Remove any nail polish clean & dry natural nails.
2. Gently push back cuticles with manicure stick.
3. Select the false nail size that most closely match of your own nails. If necessary, file the false nail at the sides and outside end.

NAILAPPLICATION

1. Note: Read opening instructions on glue bottle before use.
2. Place a drop of glue to underside of the false nail and spread with nozzle.
3. Position and press down firmly onto your own nail close to but not touching the cuticle hold for a few seconds until fixed.
3. False nails can be filed and painted with polish just like real nails but use an acetone free polish remover.
4. Nails can be worn for about a week. If for a few hours of overnight before re-applying.

REMOVAL: Dissolve false nails by soaking in an Artificial Nail Remover or Acetone. **DO NOT USE FORCE.** Any glue left on natural nails can be removed with a Glue Remover.

WARNING

Caution: Glue bonds to skin instantly if this occurs do not pry apart.
 Use acetone polish remover to separate using caution not to
 use into contact with artificial nail.
