

DON

**Read instructions and glue Caution fully before use.
Retain instructions for reference.**

PREPARATION

1. Remove any nail polish, clean & dry natural nails.
2. Gently push back cuticles with manicure stick.
3. Select the false nail size that most closely match of your own nails. If necessary, file the false nail at the sides and outside end.

NAIL APPLICATION

1. Note Read opening instructions on glue bottle before use.
2. Place a drop of glue to underside of the false nail and spread with nozzle.
3. Position and press down firmly onto your own nail close to but not touching the cuticle, hold for a few seconds until fixed.
4. False nails can be filed and painted with polish just like real nails but use an acetone free polish remover.
5. Nails can be worn for about a week, keep for a few hours of overnight before re-applying.

REMOVAL: Dissolve false nails by soaking in an Artificial Nail Remover of Acetone. **DO NOT USE FORCE.** Any glue left on natural nails can be removed with a Glue Remover.
